

[illegible]

Diagram illustrating a wire harness configuration with a resistor (R1) connected to a wire. The wire is labeled with the following attributes:

- CONNECTS TO: TB2.2RT
- WIRE DESCRIPTION: 12VDC
- WIRE NUMBER: W23
- WIRE GAUGE AND COLOR: 22AWG WE
- SOSI PART NUMBER: 9210-XXXX
- PART ID: R1

The diagram shows a green wire path with a red resistor (R1) connected to it. The resistor is labeled R1 and has a value of 9210-XXXX. The wire is labeled with the attributes listed above.
